

# PROJECT PYO

Proposed Initiatives for the Continuous Engagement of PYO supporters,  
cohorts and partners

## Introduction

In recent years, the world has witnessed a convergence of government, business, and civil society interests, resulting in consistent shifts in public opinion. As a result, observers and civic communities around the world expect business executives and public-sector leaders, such as ministers, members of the National Assembly, and other government officials, to exhibit a high level of responsibility. The growth and sustainable development of societies cannot be achieved by inadequate governance in any country. As a result, the establishment of the **PROJECT PYO** is not only desirable but essential at this crucial time. Professor Yemi Osinbajo's credentials and pedigree present a necessity to document his accomplishments and through the Project, impart his principles and values for Growth and Development on a new generation of Nigerians.

To make the actualization seamless, a web portal dedicated to the activities of Professor Yemi Osinbajo will be developed. This web portal will feature the Vice President's extensive profile as well as PROJECT PYO initiatives and programmes.

The platform will serve as an archive for Professor Yemi Osinbajo's engagements, and a platform for showcasing a road map leading to the project launch.

## Road map

**Public sensitization of PYO's contributions**

**Collation of OVP Sector Specific Contribution Since 2015**

*July 2022*

1. NSIP

5. National Livestock Transformation Plan etc

*August 2022*

**International Showcasing**

*September 2022*

**Foundation and Personal Projects**

*February 2023*

## Launch of Project PYO

*May 29 2023*

### **Proposed Programs and Initiatives - Keeping the Coal Hot for The New Tribe**

The campaign period for the recently concluded primaries elections of political parties in Nigeria affirmed the popularity of His Excellency, Vice President Yemi Osinbajo. The widespread enthusiasm from every demographic in the country towards a potential PYO Presidency created an electrical atmosphere everywhere he went. In the aftermath of the primary election, it is important to design programs and projects to:

- Cluster supporters of PYO in a manner that is coordinated and targeted
- Engage these supporters across various demographics with programs and initiatives that help to keep the fire burning towards the activation of The New Tribe
- Disseminate information on PYO's values, and other initiatives to supporters

The above will be achieved through the Professor Yemi Osinbajo Fellowship Program

#### **1. Prof. Yemi Osinbajo Fellowship Programme**

The Professor Yemi Osinbajo Fellowship Programme will be designed to run for 3 different categories:

##### **Category I - PYO Fellows - An annual elite class Fellowship Program**

A proposed one-year fellowship which will be offered on a yearly basis is aimed at building a network of high-potential young Nigerians who are already making a difference in their communities.

PYO Fellows program will include creating a sustainable opportunity to take their work to the next level through an immersive curriculum that combines academic, skills-based, and hands-on learning, and providing opportunities for them to rise to top leadership positions in the public sector.

Individuals with a demonstrated commitment to service will be equipped with the necessary tools to improve their effectiveness, develop new solutions to challenging global problems, and drive change via values-based leadership through this programme. Throughout the period, the fellowship program will provide a robust curriculum of leadership development, training, networking activities, and personalized support to help fellows gain the real-world skills, tools, and experiences they need to expand the impact of their work.

*For Young Graduates and Professionals, Entrepreneurs, Artisans etc.*

#### *Objectives*

- I. Provide a structure that would help steer fellows towards active participation and commitment to public service and informed leadership in Nigeria.
- II. Build skills, awareness and a nuanced perspective among Nigerians to tackle challenges in various fields in the public and private

#### **Category II: PYO New Tribe (white-collar) - “Keeping the coal hot” towards a 2023 or 2027 campaign**

PYO New Tribe White Collar will bring together various age groups and demographics, to create awareness and develop a nuanced perspective among Nigerians to tackle challenges in various fields in the public and private sectors.

The program will establish cells and social clubs in schools and universities with the aim of instilling the importance of values-based leadership, good governance, and hard work in children and young adult professionals. This will also involve breakfast meetings and discussion sessions on various conversational topics over the next few months. PYO New Tribe White Collar will have access to co-create and implement projects around sustainable development goals.

*For Young Graduates and Professionals (Entrepreneurs, private and public sector professionals)*

#### *Objectives*

- I. Provide a platform for coordinating and organizing the current support base of PYO across the country. Providing an avenue to keep the coal hot with the ideals and ideas of PYO. This also creates an avenue for ardent followers, enthusiasts and supporters of PYO to socialize, co-create projects, and engage with the wider community to sell the values of PYO..
- II. Build skills, awareness and a nuanced perspective among Nigerians to tackle challenges in various fields in the public and private sectors.

#### **Category III: PYO New Tribe (blue-collar) - “Keeping the coal hot” towards a 2023 or 2027 campaign**

The PYO New Tribe Blue-Collar will provide funding, skills development programmes and capacity building across various blue collar demographics such as market women, taxi drivers, okada riders, artisans etc.

The project will coordinate and support these groups with tools and advisory for business development, supporting them with their daily businesses while engaging and indoctrinating them with the values of the PYO Institute.

The project will also seek to support these groups with loans, grants, and equipment for work through non-government organizations, loan organizations, UN bodies, etc. The beneficiaries will receive various training packages which will include selling the values and ideals of PYO Institute

*For Artisans, Market women and men, and workers in the service industry (bikes, taxis etc)*

#### *Objectives*

- III. Provide an opportunity for coordinating supporters of PYO within these social and working groups, supporting them with their daily businesses while engaging and indoctrinating them with the values of PYO.
  - IV. Provide funding, skills development programmes, and capacity building programs for the beneficiaries.
- 

## **PYO Global Institute for Governance**

The principles, ethics, and morals of those who lead the country form the foundation of a society. As a result, in mainstream politics, the importance of intellectual honesty and values-based leadership cannot be overstated. The **PROFESSOR YEMI OSINBAJO Institute** will bring together supporters of PYO as one unit, establishing engagements for every demographic and age group.

# Growth Development Projects

We support projects across the world

## 1. Prof. Yemi Osinbajo Global Institute for Governance

**PYO Global Institute for Governance** aims to develop exceptionally passionate, principled, and innovative governmental, corporate, and civil society leaders while also establishing itself as a global governance and leadership institute of repute with a long-term impact on national and corporate governance, ultimately accelerating the sustainable development of communities in Nigeria and around the world.

PYO Global Institute for Governance, as a non-profit independent institute and a 'Think Tank,' will advocate the principles of Effective Public Administration and Sustainable Development through cutting-edge research & advocacy, with a primary focus on teaching good governance and leadership to young leaders from various streams.

*For Professionals (Junior level, Mid-level and Advanced level), Political aspirants and Leaders*

### Objectives

- I. Function as a 'Think Tank' and undertake advocacy in public governance, public policy matters, global leadership for peace, good governance and sustainable development.
- II. Undertake activities relating to the advancement of public governance and public policy improvements.

## **2. Prof Yemi Osinbajo Tech for Growth Initiative (PYO-Tech4Growth)**

An Initiative of the PYO Institute

PYO-Tech for Growth initiative seeks to facilitate growth in the technology and creative ecosystem in order to boost innovation, create employment, encourage entrepreneurship, improve social development, and achieve economic transformation. ICTs can assist underprivileged communities in obtaining, managing, and disseminating knowledge, as well as connecting to global information and service networks.

Through Digital entrepreneurship skills, Venture funding and Business development, the goal of the skills and enterprise development component is to harness Nigeria's young talent pool and equip them with digital and creative skills in order to boost their employability, stimulate innovation in both ecosystems, and support the emergence of more entrepreneurs.

*For Students (Primary, Secondary and University Students), Young Graduates and Professionals (Entrepreneurs, Artisans, Market Women)*

### *Objectives*

- I. Provide access to digital and creative skills that are in high demand.
- II. Equip youths with employability skills and utilize relevant collaborations to boost their chances of securing livelihood opportunities.
- III. Develop the talent pool to assist in the expansion of the innovation economy and the attraction of the appropriate types of investment.
- IV. Increase the diversity and engagement of indigenous people and those living in rural areas in the technology and innovation economy.

## **3. Prof Yemi Osinbajo Just Energy Transition Initiative (PYO-JET Initiative)**

An Initiative of the PYO Institute

PYO Just Energy Transition is based on two grounds: that collective global action is necessary to address the drivers and consequences of climate change; and the transformational change required to solve these challenges for economies, societies, and the global commons has the potential to affect some stakeholders while benefiting others.

The PYO-JET Initiative is aligned with the Climate Investment Funds (CIF) view that just energy transitions to low-carbon and climate-resilient development can create opportunities for social equity, environmental sustainability and economic prosperity. As societies transition to low-carbon and resilient economies, PYO-JET's framework will focus on promoting equitable access to the benefits and sharing of

the costs of sustainable development, ensuring that the livelihoods of all people, including the most vulnerable, are supported and enhanced.

A just energy transition can help Nigeria, and by extension, African countries achieve greater income redistribution while also ensuring that climate action takes place in tandem with development.

*For Young Graduates, Professionals (Junior level, Mid level and Advanced Level) and Entrepreneurs*

*Objectives*

- I. Build a network of key stakeholders, partners, and experts to discuss a just energy transition in Africa with the goal of reaching an agreement and charting a course for the continent.
- II. Organize workshops to strengthen participants' capacity to participate as change agents in raising awareness for a just transition across Africa.
- III. Develop a just transition framework that is based on African realities and promotes environmental sustainability and equitable economic growth.

# **Office of Prof. Yemi Osinbajo**

For PYO engagements within private and public

The Office of Prof Yemi Osinbajo, an umbrella organization under the Project PYO, will allow Prof Yemi Osinbajo, in partnership with others, strategic advice on a commercial and *pro bono* basis, on political and economic trends and governmental reforms.

Outlines will include:

1. About the Office of PYO; Bio, Political and Economic background
2. Scheduling: For invitations to PYO to appear/speak at events
3. Request a meeting: For private consultations
4. Contact: Messages and enquiries
